

Design Engineer

Energize your career with Westinghouse! Advanced nuclear plant designs. Nuclear fuel. Service and maintenance. Instrumentation and control systems. No other company is more focused on helping utilities around the world improve their plant technology, reduce outage times, reduce maintenance costs, and have access to the highest quality nuclear fuel.

If you are interested in being a part of a company that is leading the way with a new generation of nuclear technology, helping the world meet growing electricity demand with safe, clean, and reliable nuclear energy, we want to hear from you.

Westinghouse Energy Systems LLC Bulgaria Branch, part of Westinghouse Electric Company LLC, is looking to hire for its Global I&C Center of Competence in Sofia, a ***Design Engineer***.

Job Responsibilities:

As a Design Engineer you will:

- Perform functional design, implementation, testing and site commissioning of control logic in Ovation Platform and Westinghouse Internal Design Development Tools;
- Develop Complex Nuclear Mathematical Applications
- Review Customer specifications and own the development of detailed technical documentation related to the design of the instrumentation and control systems;
- Implement standard instrumentation and control design solutions for Westinghouse internal projects;
- Revise and update technical project documentation based on design updates and Customer comments as necessary;
- Participate in technical meeting with Project lead and internal and external customers to understand requirement/scope of work/schedule and Quality requirements;
- Provide system warranty & post-warranty maintenance at Customer sites;
- Ensure accuracy and completeness of assigned tasks.

Requirements for the Position:

- Bachelor or higher degree in Engineering, preferably in Automation, Mathematics, Physics or Power Engineering;
- Very Good written and spoken English;
- Advanced knowledge of MS Office, MS Access, MS Visio;
- Relevant experience will be considered an advantage;
- Readiness to travel abroad and within the country.

Desired Skills

- Highly organized and task focused;

- Motivated to work under tight deadlines on multiple assignments and with large amounts of technical documentation;
- Very good communication skills;
- Ability to work effectively within agreed deadlines;
- High level of personal credibility, networking and interpersonal skills;
- Knowledge in programming languages Java and/or Visual Basic and SQL;
- Motivated to self-learn and develop

Why Westinghouse?

Westinghouse will remain the first choice for safe, clean, and efficient energy solutions. We enhance our delivery of that vision by living our values:

- Safety & Quality First
- Valuing Ethics, Integrity & Diversity
- Passion for Serving Our Customers Globally
- Dedication to Each Other Through Servant Leadership
- Creating Value for Shareholders, Customers and Employees
- Consistently Delivering Our Commitments.
